Management Plan

R.A.V.E. Space project

Raising Awareness of Values of Space through the process of Education

Purpose of the project

To raise awareness of primary and secondary school pupils:

- about the values of space,
- about the importance of spatial planning for sustainable development.

Outputs of the project

Methodology, analysis of primary and secondary school curricula, international questionnaire, teaching tools (manuals, TV series...), seminars for teachers, strategy of education for sustainable spatial development, information and publicity activities (web side, brochures, posters...).
