

The MEDA Water programme

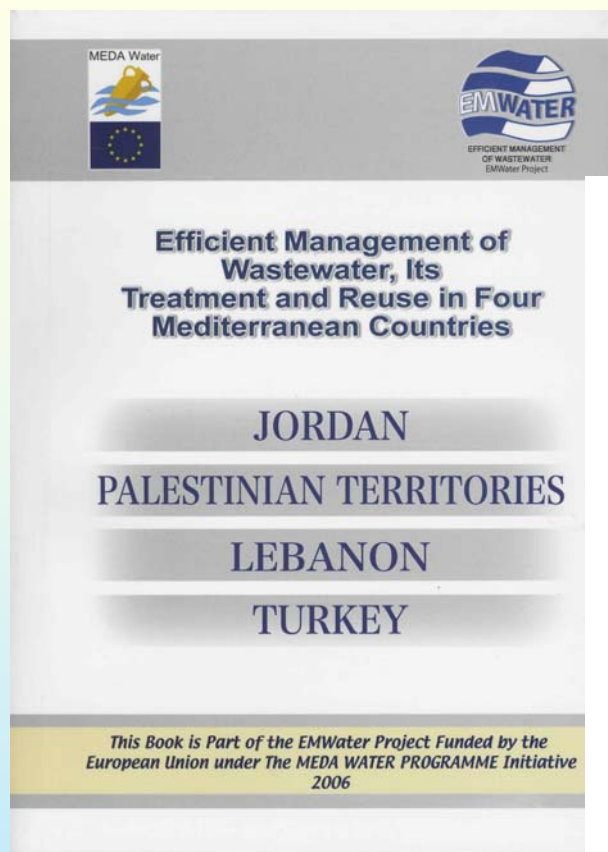

MEDA Water

Objective:

To improve the sustainable availability of water resources for the economic and social development of the Mediterranean region through integrated management of water resources

cnearc
Centre National
d'Etudes Agronomiques
des Régions Chaudes

Diagnostic des systèmes de production du périmètre irrigué du N'Fis (Maroc)

Un aménagement aux résultats contradictoires

Mémoire de fin d'étude présenté par :
Arnaud FINET, en vue de l'obtention du Diplôme d'Ingénieur en Agriculture

Maître de stage :
M. Thierry RUF, directeur de l'UR 044, IRD
Directeurs de mémoire :
Mme Roselyne FEYT
Mme Marie Jeanne VALONY

Octobre 2002

OPTIONS méditerranéennes

SERIES A : Mediterranean Seminars
Number 72

**WEMED Workshop:
How to advance the knowledge on water use efficiency in the Mediterranean region?**

Editors:
G. RANA, M. MASTRORILLI, R. ALBRIZIO

CIHEAM / IAMB

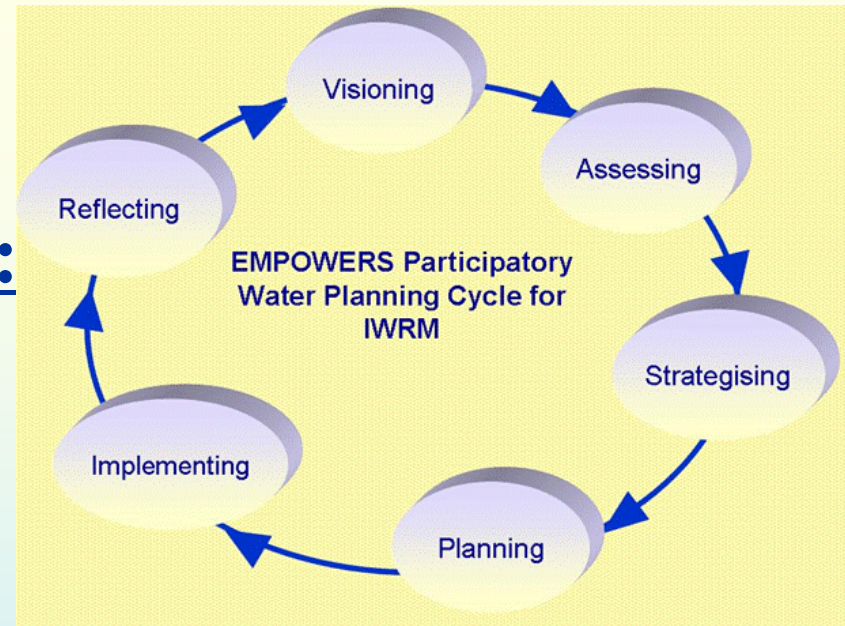

Anticipated Result 2:

Regional cooperation has been reinforced

Anticipated Result 3:

Planning and management of water resources has been improved

Anticipated Result 4:

**Alternative water resources
availability has been increased**

Horizontal theme 1

Strengthening of institutional capacities

Horizontal theme 2

Exchange of information and know-how

Horizontal theme 3

Awareness raising and mobilisation

Follow-up

Final tasks RMSU:

- Evaluation of MEDA Water results in the light of the Turin Action Plan (final task RMSU)
- Definition of most promising fields of action where regional activities are needed

Most promising options:

- Know-how transfer through networking on technical and managerial subjects
- Systematic promotion of water user participation
- Rethinking of sanitation and promotion of wastewater reuse

upcoming event
